

STANDARD FRAMES FOR CLEANING MATS - height 20 mm

Aluminium frame reinforced with a system of connections, used for mats of 20 mm total height

Frame dimensions: 25mm x 21 mm x 5/3 mm.

The frame is equipped with angle plates, allowing quick connection at 90 degrees, as well as anchors, which enable embedding the frame directly in a concrete base, without drilling and, next, levelling and filling it with cement mortar.
The frame can also be ordered with openings for fastening screws.
